

Nordic zebrafish meeting 2023

16– 17 November, Stockholm

The zebrafish core facility at Karolinska Institutet, in collaboration with partners from Nord University and Norecopa, would like to invite you to a **Nordic zebrafish meeting**. The aim of this meeting is to build a strong network of zebrafish facility managers and PIs by founding a Nordic Zebrafish Network. The two-day meeting will cover the following aspects:

- Harmonisation of husbandry procedures
- Harmonisation of biosafety strategies
- Building a platform for education and training of zebrafish care staff
- Building a platform for exchange of fish lines
- Building a platform for cryopreservation of fish lines
- Founding a Nordic Zebrafish Network

More information about this meeting and the detailed programme will soon be published on the homepage of the Karolinska zebrafish core facility:

<https://ki.se/en/research/courses-and-education-on-zebrafish>

The course will be held at the aquatic unit of the zebrafish core facility at Karolinska Institutet. The facility was founded more than 18 years ago and moved into new premises in 2020. It provides infrastructure and project services to both internal and external customers.

A hands-on course on zebrafish husbandry will be held at the facility on 13-15 November.

Do not hesitate to contact us if you have any questions, or visit our homepage.

Email: zebrafish-office@km.ki.se

We hope to see you in November!

Lars Bräutigam & Wendela Vester (Karolinska Institutet)

Cesilie Røtnes Amundsen (Nord University)

Adrian Smith (Norecopa)
