

3Rs and animal welfare in international fieldwork: Experiences from tagging geese on Norwegian tundra and Mongolian steppe

Nordic 3R webinars, 5-6 May 2021

3Rs and animal welfare in international fieldwork: Experiences from tagging geese on Norwegian tundra and Mongolian steppe

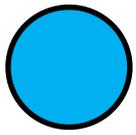

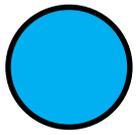

- “Science for science”
- Conservation and management
- Human and veterinary health

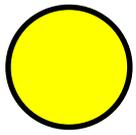

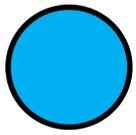

Structure

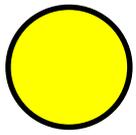

- Wildlife research environment
- What's going on?
- Progress

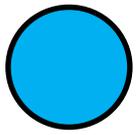

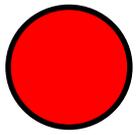

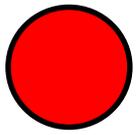

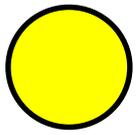

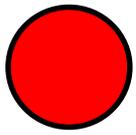

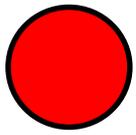

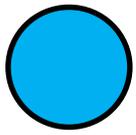

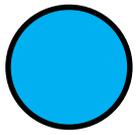

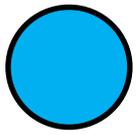

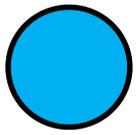

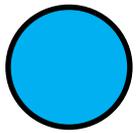

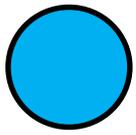

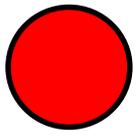

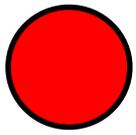

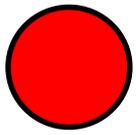

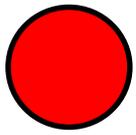

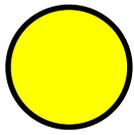

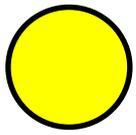

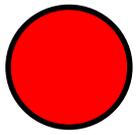

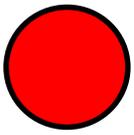

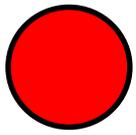

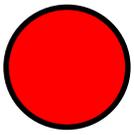

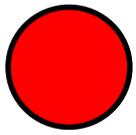

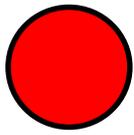

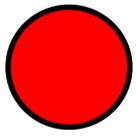

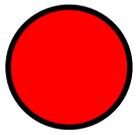

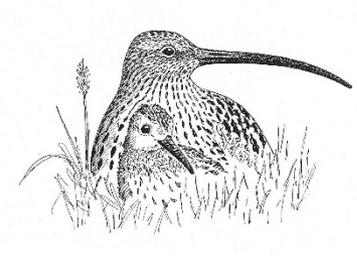

Take away message

- Collaboration not neo-colonization
- “Rome wasn’t built on one day”
- Build trust, show respect, be honest, be brave
- Improve research setting – for the sake of the animals
- Recognize the special conditions of wildlife research
- Build evidence and develop suitable methods

Thank you for your attention

Adriaan "Adjan" de Jong

Associate professor

Dept. of Wildlife, Fish, and Environmental Studies

Swedish University of Agricultural Sciences
